

# Wish List

I have always been absolutely overwhelmed by the generosity of parents, but please do not feel you *must* bring anything in from the Wish List. We will certainly benefit from the items being brought, but we can learn without them or find another way to have the wish fulfilled!

These books are on my classroom wish list through Scholastic.com. They may be purchased individually or in packs. We received the audio version of these books through the Tri-City Education Foundation grant. I would be thrilled to have new or used versions of either of these series to accompany our listening center.

Geronimo Stilton Series Books 1-10 (we do not have any in our library)

A-Z Mysteries First 10 Books (we do not have any in our library)

Junie B. Jones Series (I have purchased one set already)

Magic Tree House Series (I have acquired one set already)

Amelia Bedelia Collection (I have purchased one copy of the collection)

**Volunteers to look up and label Lexile and Grade levels in classroom books.  
This can be done at home with Internet or in our classroom anytime!**

**Volunteers to staple our paper decodable books.**

**Volunteers with a steady hand to cut out activities at home.**

*Thank you for your consideration.*
