

# GOOD BEHAVIOR IS FAR OUT!

Students will monitor their behavior differently this year than last year. The star located on the east side of the room has each child's name on a tag. The plan encourages children to stay on the star. After a verbal warning, a poor choice will cause the tag to go into orbit and the student will lose half of the next recess. Another poor choice and the tag will land in a black hole and miss the next full recess. The third step removes the tag from the board, the next 2 recesses will be missed, and a note will be included on that student's newsletter.

This is a fun way for students to monitor their behavior and to reward them for making good choices. Each Friday, we will host a Fun Friday and the children who have stayed on the star will be eligible for participation. The activities will be determined by the children, but could include art projects, extra recess, or snacks.
